

Name _____

Measuring What You Can't See C64

Scoring Criteria	1	2	3	4
Student followed instructions to construct a ridge with five marks at the top edge.				
Student lowered a straw between the cardboard at each mark.				
Student measured how many centimeters each straw was lowered.				
Student collected data in a chart and interpreted data by making a drawing of the ridge.				
Student compared and contrasted drawing and the actual ridge.				

Score: total points	
Score: % equivalent
