

Name _____

Investigating Force Used to Move Objects B54

Scoring Criteria	1	2	3	4
Student followed instructions to measure length of rubber band when moving objects.				
Student recorded measurements when moving objects across a smooth and a rough surface.				
Student compared the amount of stretch needed to move objects of different masses.				
Student described how results changed when moving objects across a rough surface.				
Student made references about the force needed to move objects across surfaces.				

Score: total points	
Score: % equivalent	

Scoring Key

- 4 points** correct, complete, detailed
- 3 points** partially correct, complete, detailed
- 2 points** partially correct, partially complete, lacks some detail
- 1 point** incorrect or incomplete, needs assistance
